PUBLIC SESSION

The Quality and Professional Affairs Committee of the Wexner Medical Center Board convened on Tuesday, October 27, 2026, virtually and in person, in Room 234 of Meiling Hall on the Columbus campus. Chair Kara Trott called the meeting to order at 4:00 p.m.

Item for Action:

1. Approval of Minutes: No changes were requested to the September 22, 2026, meeting minutes; therefore, a formal vote was not required, and the minutes were considered approved.

Items for Discussion:

2. Clinical Accomplishments: Dr. Andrew Thomas, chief clinical officer for the Wexner Medical Center, detailed several highlights from the past month. The medical center earned gold-level recognition from the American Medical Association's Joy in Medicine program, which promotes efforts to reduce health care worker burnout and support workforce well-being. The supply chain team at the medical center also received national recognition as the recipient of the 2026 Sourcing Visionary Award from Vizient, and Dr. Imani Jones, director of the Department of Chaplaincy and Clinical Pastoral Education, received the 2026 Inspiration Award from the Association of Clinical Pastoral Education. The Jameson Crane Sports Medicine Institute is celebrating its 10th anniversary.

3. Annual Graduate Medical Education Report: Dr. Scott Holliday, associate dean for graduate medical education at the College of Medicine, presented the annual institutional review (AIR) of graduate medical education programs. The vast majority of programs are performing quite well, garnering no citations from accreditors. Ten programs are ranked among the top 20 nationwide according to Doximity. Just four programs did receive citations, the majority of which were clerical errors. Work is underway to address these issues and identified deficiencies, solutions to which are all readily attainable.

DRAFT

Dr. Holliday then discussed survey responses from residents and fellows related to well-being. While emotional exhaustion was on the rise, workplace engagement remains stable. This may reflect the added effort of transitioning into the new University Hospital, which opened just before the survey was conducted. The issue is being closely monitored, and regular well-being check-ins are being instituted within programs. Dr. Holliday closed by discussing new initiatives — including one to transition residents and fellows into faculty members and another to utilize remote onboarding to reduce the burden of pre-residency screenings — and action items being pursued in response to the AIR's findings.

EXECUTIVE SESSION

It was moved by Ms. Trott and seconded by Mr. Skestos that the committee recess into executive session to discuss quality and safety matters, personnel matters and to consult with legal counsel regarding pending or imminent litigation.

A roll-call vote was taken, and the committee voted to move into executive session with the following members present and voting: Ms. Trott, Mr. Skestos, Mrs. Kiggin, Dr. Brown, Mr. Papadakis, Dr. Warner, Dr. Rathmell, Dr. Thomas, Dr. Cohn, Ms. Seely, Mr. Like, Dr. Maddocks, Dr. Bourekas, Dr. Williams, Dr. Holliday, Dr. Brethauer, Dr. Tubbs, Ms. Mignery and Dr. Steinhauer.
